

NOW WOMEN CAN PREVENT DYSMENORRHEA, UTI, OTHER VAGINAL INFECTIONS AND EVEN CERVICAL CANCER!

Winalite International's Love Moon ANION Sanitary Napkins and Pantyliners have been created to do just that and more!

With its patented breakthrough technology ANION strip in every pad, Love Moon ANION Sanitary Napkins and Pantyliners relieve stress, controls bacteria and inflammation (especially during our monthly period), eliminates bad odor (before, during and after our menstrual period), improves hormone secretion, strengthens the immune system and reduces body fatigue.

Love Moon ANION Sanitary Napkins and Pantyliners make you feel SO DRY AND COMFORTABLE you practically forget that you have your period! As in NO DYSMENORRHEA so you won't have to take mefenamic acid; NO FOUL ODOR even during your period (Amazing!), NO INFECTION and DISEASES THAT CAN LEAD TO CERVICAL CANCER, NO RASHES, NO ALLERGIES! It's super absorbent = less changing.

That's because unlike commercially available sanitary pads that are made of recycled paper and bleached to become white in color, Love Moon ANION pads are made from polygel, which are natural and safe.

And as for the ANION strip? ANION is actually negative ions that are also in the air.

"Negative ions have been proven to improve your health and well being... "

Love Moon ANION Sanitary Napkins enhances your daily health with our proprietary "negative ions" tape embedded within every single napkin.

These tapes release up to 5800 negative ions per cubic cm which has been proven in numerous scientific studies to protect women against genital diseases, eliminate harmful bacteria, odor, enhance comfort and improve your health.

Our sanitary napkins have also been awarded numerous international patents and prestigious awards.

7 UNIQUE CHARACTERISTICS EVERY WOMAN WILL LOVE ABOUT LOVE MOON...

1. Enhanced Air Ventilation (truly breathable)
2. Patented Anionic Padding
3. Highly Absorbent & Prevents Leakage
4. Stringent Compliance to International Safety Levels
5. Packaged in hygienic, air tight sealed packets (protect pads from bacteria and dirt)
6. Our Hi-tech Production Facility ensures highest quality standards
7. Patented Self Test Kit Provided Free Of Charge (like a Pap Smear kit that you have to buy from the OB-GYN or from the drugstore)

Even the glue used that is meant to stick with our undies is made of all-natural glue, not commercial-grade synthetic/chemical glue that usually stays even after three to five washings and even damages the texture of our undies.

Too good to be true? Try it to believe it. It's better to be safe than sorry. After all, cervical cancer is one of most common diseases nowadays, with the incidence rate ranking second in women tumor. Est. 200,000 women die of cervical cancer each year.
